Formalizing Agreements in a Zoom Mediation

In a face-to-face mediation, agreements to mediate are the first order of business, and often that preliminary agreement is formalized by signing a paper form. Similarly, many face-to-face mediations that produce an agreement conclude with the signing of a written contract. But in online mediation, how can these agreements be formalized? We have decided to use the following:

Formalize Agreement Via Email

To formalize agreements via email, ensure all participants are familiar with the technology to be used. Many participants are likely familiar with software that attaches digital signatures to PDFs, such as Adobe Acrobat, PDF Buddy, and others. Digital signatures take a variety of forms. It may be an image that mimics a handwritten signature, or it may be a digital signature certificate encoding the signature's attachment to the file. Alternatively, participants may prefer to print the agreement, sign a hard copy, and return the signed copy. All these options can be effective, provided the participants (and the mediator) know how to use the technology involved. This info sheet demonstrates how to sign and share an agreement to mediate using Adobe Acrobat Reader's signature function.

1. After preparing the text of the Agreement to Mediate. Save it as a PDF and open the PDF in Adobe Acrobat Reader.
2. Select Acrobat Reader's "Sign document" function on the right side of the upper toolbar. This opens the "Fill & Sign" toolbar.

Sample Agreement to Mediate.pdf - Adobe Acrobat Reader DC
This is an agreement between Frank Churchill and Emma Woodhouse, hereinafter "participants," and Jane Austen, hereinafter "mediator," to enter into mediation with the intent of resolving issues related to Case No. 0002.
The participants and the mediator understand and agree as follows:
[Content of agreement omitted to save space.]
Dated April 8, 2020

3. On the "Fill & Sign" toolbar, click "Sign," then click, "Add Signature." This opens a window that enables you to create a signature by typing, drawing, or uploading an image. A typed signature is used for this demonstration.

4. Type your name next to the red arrow and click "Apply."

5. The window will close, returning you to the document to be signed. Your typed signature will attach wherever you click next, so navigate your cursor to the location you want to sign and click once. Your signature is attached.

6. Save document and return to the email that was provided.
